Ans. (i) As each new dynasty came to power, kings wanted to emphasise their moral right to be rulers.

(ii) Constructing places of worship gave rulers a chance to proclaim their close relationship with God, especially important in an age of rapid political change.

(iii) Rulers also offered patronage to the learned and pious and tried to transform their capitals and cities into great cultural centres that brought fame to them.

Q.4. When was rule by a king supposed to be just? How did people react to it?

Ans. (i) It was widely believed that the rule of a just king would be an age of plenty when the heavens would not withhold rain.

(ii) At the same time, making precious water available by constructing tanks and reservoirs was highly praised.

(iii) Sultan Iltutmish was given respect for constructing a large reservoir called Hauz-i-Sultani just outside Delhi-i-Kuhna.

(iv) Rulers often constructed tanks and reservoirs for use by ordinary people.

Long Answer Questions

Q.1. Examine the style of architecture from the 12th century.

Ans. Two notable styles of architecture developed from the 12th century. These included:

Arcuate Architecture

In this, the weight of superstructure above the doors and windows was held by arches.

Faster Construction

From 12th century onwards, use of limestone increased. High quality cement when mixed with stone chips developed into hard concrete which made the building of structures faster and easier.

Q.2. How is an architecture a source of constructing history?

Ans. The architecture of medieval India is the most authentic source of constructing history. The significance can be known from the following facts:

- The monuments portray engineering skills and building techniques of a particular time period.
- They reflect different styles of architecture. Thus, for instance, the Nagara style of architecture is reflected by North Indian temples while South Indian temples reflect the Dravidian style of architecture.
- The havelis and palaces reflect the grandeur of royal families while the forts with high walls and gateways reflect the preparedness for defence against enemy.

Q.3. Describe the architecture style that existed in North India during Gupta Period.

Ans. In North India, nagara style of architecture was famous. Khajuraho temples in Madhya Pradesh were built by the Chandellas. The Kendriya Mahadeva temple has 84 decorated small towers surrounding the main tower. The Shikhara is so designed that it appears like Mount Kailasha, the home of Lord Shiva. The Vishwanath, the Parsvanatha and the Kendriya Mahadeva temples were all based on Nagara style. This style is marked by a curvilinear temple tower which ends up almost in a point.

Q.4. Describe the style of architecture in South India.

Ans. (i) In South India, the Pandyas, the Pallavas and the Cholas were great temple builders.

(ii) The South Indians follow the Dravidian style of architecture.

(iii) The gateway of the temple was known as Gopuram.

(iv) The area where the image of Gods and Goddesses was kept was called Garbhagriha.

(v) The mandapa was located in front of the Garbhagriha. It was an assembly hall where people gathered for prayers.

(vi) The top of the main shrine had a tower-like structure called 'Shikhara'.

(vii) The famous temples built under Cholas were the Brihadeeshwara temple and the Gangaikondacholapuram temple.

Q.5. Give chief features of Mughal architecture.

Ans. The chief characteristics of Mughal architecture are:

- Use of pure white marble and red sandstone.
- Gold, jewellery and diamond inlay work.

- In the Jama Masjid at Fatehpur Sikri, inlaid marble and plaster relief in colour have been freely used.

Q.7. Describe the development of architecture under Jahangir and Aurangzeb.

Ans. (i) Under Jahangir, the building activity slowed down. He built the Akbar's tomb at Sikandra (Agra).

(ii) The tomb of Itmad-ud-Daulah at Agra was built by Nur Jahan.

(iii) Its exterior had exquisite ornamentation in white marble.

(iv) Architectural innovations stopped under Aurangzeb.

(v) The tomb of Rabia Durrani, Aurangzeb's wife, at Aurangabad is a poor imitation of Taj Mahal.

(vi) The Badshahi Masjid at Lahore was built during Aurangzeb's reign.

Q.8. Describe Shah Jahan as the greatest builder under Mughals.

Ans. (i) The world famous Taj Mahal at Agra was built by Shah Jahan in memory of his beloved wife Mumtaz Mahal.

(ii) Other famous buildings of Shah Jahan include Moti Masjid (Pearl Mosque) at Agra, Red Fort and Jama Masjid at Delhi and Jahangir's tomb at Lahore.

(iii) The Red Fort complex combines the fort, an office complex, Diwan-i-Khas where Shah Jahan held meetings with his ministers and senior officers and Diwan-i-Aam, where he met general public.

Hots (Higher Order Thinking Skills)

Q.1. What were the two types of structures of architecture found in India?

Ans. Grandiose Structures: These included forts, palaces, gardens and tombs, which were places of safe residence in this world and in the world beyond (i.e., after death).

Structures for Public Activity: The second type of structures were structures for public activity which included mosques, temples, wells, caravan, sarais and bazaars. Kings aimed for public good and they did this by building structures for their utility and comfort of the general public.

Thus, constructing buildings was an essential part of the medieval period.

Q.2. Why is medieval architecture rich?

Ans. The medieval architecture is rich due to the following reasons:

- Rulers built tombs, palaces and forts to demonstrate their wealth, power and position.
- It was a way to celebrate their victory in war.
- By building temples and mosques, rulers showed their devotion to God. It got them public support.
- The rulers wanted to leave behind structures which would show the future generations the legacy of their grandeur.
